

Scope

The report to follow will cover the work of Agents in the twenty-nine counties of North Carolina. However, my services as 4-H Club Specialist started September 16, 1936.

I feel that with a brief summary of the year's work with 4-H clubs I shall have a more definite guide to follow in conducting and planning club work for another year. To that end I am making a summary on the basis of a year's work with Negro clubs over North Carolina.
