

COOPERATING AGENCIES, ORGANIZATIONS AND DONORS

Through financial and moral support of the many cooperating agencies, organizations and donors 4-H Club members are given incentives and recognition for achievement in project and demonstration programs. Without the support of these people proper recognition could not be given the many 4-H members.

In addition to the organizations and agencies listed below, there are hundreds of others who support 4-H Club work at the county level. It has been estimated that this support may total as much as \$100,000 each year. Equally as important as the financial support is the continued interest and active participation in the program.

<u>Agency, Organization or Donor</u>	<u>Program(s) Supported</u>
Smith-Douglass Company	(2) \$1,000 scholarships
