

HOME DAIRY - NEGRO

In Columbus county the agent reports that a very small number of the club members have cows but that she is constantly talking the need of a cow in every home.

The Wayne county agent says, "The cow does not have any rest. She is kept before the people constantly. A cow for every family and a pasture and comfortable quarters for every cow is the slogan. The relation between the cow and the babies is so pointed it must be seen, and the grown folks come in for their share, particularly the mother and the boys and girls."
