

### Home Poultry

The narrative report of poultry work as done through home demonstration agents is given by the poultry specialist, Mr. C. F. Parrish. The following figures are interesting:

There are 20 counties with an enrollment of 1,797 women and 725 girls, who report work in poultry.

There was a total of 1,751 result demonstrations started or under way, and a total of 55,680 birds in these result demonstrations raised or managed by club members.

There were 344 homes culling flocks for the first time and 226 homes feeding better balanced rations for the first time.

1431 homes directly assisted in increasing the family income through poultry, and 8413 homes adopted better poultry practices.
