

US005665349A

United States Patent [19]

[11] Patent Number: 5,665,349

Levings, III et al.

[45] Date of Patent: Sep. 9, 1997

[54] **RECOMBINANT BACULOVIRUS WITH INSECTICIDAL ACTIVITY**

[75] Inventors: **Charles S. Levings, III**, Raleigh, N.C.; **Kenneth L. Korth**, Ardmore, Okla.

[73] Assignee: **North Carolina State University**, Raleigh, N.C.

[21] Appl. No.: **533,215**

[22] Filed: **Sep. 22, 1995**

Related U.S. Application Data

[63] Continuation of Ser. No. 139,440, Oct. 20, 1993, abandoned.

[57] **ABSTRACT**

A method of agricultural pest control using recombinant baculovirus which express DNA coding for the mitochondrial pore-forming protein URF13, or homologous DNA. Compositions for agricultural use containing the recombinant baculovirus.
